

DiDi Chuxing

DiDi Chuxing (“DiDi”) is the world’s leading mobile transportation platform that offers a full ranges of mobile tech-based mobility options in China for 550 million users, including taxi hailing, private car hailing, bike sharing, car rental and food delivery. In order to solve the world’s transportation, environmental and employment problems, DiDi is committed to cooperate with policymakers, the taxi industry and communities with smart transportation innovations. In addition, DiDi uses big data-driven algorithms to optimize resources allocation.
