

Stripe is a technology company that provides a platform for individuals and businesses to make and receive payments over the internet. Unlike PayPal which targets all customer base, Stripe mainly focuses on merchants and business owners. Recently, the company has gained a number of large enterprise customers such as Google and Microsoft, Uber, Spotify and Salesforce. The firm is valued at \$20 billion in September 2018 which has doubled from its previous valuation of \$9 billion 2 years ago. The company through its latest funding plans to expand internationally.
